How to Use:
- Type into the text box provided
- LLMs will process the user input and provide an output based on what context it finds in the provided documents in the "Documents Page"

How to Write a Prompt:
1. When the program is running, click the "chat" tab on the left hand side.
2. Click on the bar at the bottom that says "type to chat"
3. Enter a question about documents in the database
4. Make sure to check the "database" tab to make sure a document you are referencing exists

How to write a better response:
1. Provide as much detail as possible, the more info you provide an LLM, the more context it will search for.
2. Be specific when requesting a certain output format. EX: "In 3 sentences..."
